

**Scope:**

This course is for Residential Wood Framed Construction in High Wind Areas. This will be a one-day course.

The Residential Wood Framed Construction in High Wind Areas course concentrates on the minimum requirements for residential construction in areas of high winds. The course is to provide knowledge of the general residential requirements and application of codes in hurricane prone areas.

**Instructor:**

Bill Carrigee will be the instructor. Mr. Carrigee is a Certified Building Official, Building, Plumbing and Mechanical Code Official, Residential Combination Inspector, and Certified Floodplain Manager. He has over 30 years of experience in building, plumbing and electrical and is licensed in all three areas.
